

WE UNDERSTAND **HIGHER EDUCATION**

Delivering value for your budget dollar

ENFOLD SYSTEMS AND HIGHER EDUCATION

Enfold Systems (Enfold) has extensive experience working with higher-education clients, nationally and abroad, to enable easier communication and collaboration among students, faculty, alumni, affiliates, donors and the outside world.

Enfold's experienced staff will work with you to understand your needs and address critical challenges to ensure you receive the most value for your budget dollar. In addition, Enfold enables organizations with limited IT staff and resources to reuse and leverage their existing infrastructure and skills.

Enfold delivers systems tailored to meet the needs of educational institutions based on the Plone Content Management System. Plone gives non-technical users the freedom to easily create and maintain website content, while preserving a consistent brand image - on a centrally managed platform. Plone is also used for intranets and extranets to enable easier collaboration amongst distributed groups.

Enfold allows you to take advantage of this full-featured, open source system (no software license fees), by providing the services, support and training you need - all for a fraction of the cost of most proprietary content management systems.

SHARING OUR KNOWLEDGE

With your distinct set of challenges, Enfold can help you to develop and execute strategies for continued success and growth, within your budget.

- Enable non-technical users
- Maintain consistent brand image
- Centralized website management
- Departmental & institutional sites
- Student, faculty & group mini-sites
- Group participation & collaboration
- Donations, fundraising & affiliates
- Newsletters & e-mail lists
- Event registration & management
- Course materials & scheduling
- Module based learning
- Research & laboratory applications
- Accessibility (Section 508 Compliance)

SHARED VALUES

Enfold actively participates in open source software. We share our knowledge and software to benefit a worldwide community.

As key contributors to Plone, we invest in, and encourage our clients to release software we develop back to, the community. Many of our clients enjoy our spirit of giving back.

ABOUT ENFOLD

Enfold Systems was founded in 2004 by Alan Runyan, co-founder of the Plone Content Management System and the Plone Foundation.

NOTABLE CLIENTS

FLEXIBILITY

"I've yet to find something that I dislike about Enfold Systems, I am very, very pleased. I like the fact that I have a company to support me while also having open source available where I can go and look for additional features as needed."

John Gerhardt, Aiglon College

EFFICIENCY

"Timeframe and project management were impressive - We were able to launch our site within three months from the inception of the project. Our experience with Enfold has been enlightening."

Marilyn Howard, Rice University

ENABLER

"Because of specific tools that Enfold has been able to craft, I as an administrator have been able to maintain 160+ websites."

Kurt Bendl, University of Louisville

CRITICAL SUPPORT

"Enfold adds valuable features to the open source Plone product, and it's definitely a worthwhile investment. Your support staff has always been very responsive with our needs and questions. You went above your call of duty to help us."

Aleksandr Vladimirov, UC Berkeley

PEACE OF MIND

"Since using Plone and Enfold Systems' solutions at our company, our website has run smooth. I can't remember when we had to re-boot or do anything to the website. It's wonderful... It's just wonderful... "

Tess Bond, Faulkner Community College
